

PINNACLE

DERMATOLOGY

Join the fastest-growing leader in comprehensive skincare

“

It's been a wonderful experience...and I feel like I have found a brotherhood.

We work together and I feel like I have a strong team behind me.

”

- Dr. Patrick Carney

Pinnacle Dermatology is proud to be a place where extraordinary things happen. Our mission is to educate communities about the importance of skin health through annual skin exams and dermatologic care. Our 70+ locations, in eight states, have over 130+ providers and 700+ employees. We provide the latest proven, proactive, and comprehensive dermatologic care to all populations in the expanding geographies. We serve patients by making high-quality skincare more accessible, while also creating a rewarding work environment for our providers and employees.

Proactive care is at our core

Pinnacle Dermatology is proud to be female founded by dermatologist and Mohs surgeon Dr. Paula Lapinski. Thanks to her vision for a dermatology model that provided higher standards of patient care, Pinnacle Dermatology founder Dr. Lapinski laid the foundation for who we are today.

As one of the first female dermatologists to operationalize earlier detection of skin conditions and skin cancer, Dr. Lapinski facilitated Pinnacle Dermatology's commitment to offer every patient an Annual Total Body Skin Exam. By detecting serious skin conditions before they can become more complex and harder to treat, patient outcomes are improved.

Dr. Paula Lapinski.

Making history through innovation

Since Pinnacle Dermatology's beginning, we've made a lasting commitment to improve the way skin care is delivered. For example, our patients have access to Mohs surgery in our local clinics rather than having to rely on higher-cost ambulatory or surgical centers. We've also adopted operational standards that respect our patients' time and well-being, including same-day appointment access, online scheduling and a focus on continuous patient feedback.

United in our purpose to educate, protect and care for your skin

Today, Pinnacle Dermatology is a multistate dermatology leader that is proudly led by a diverse executive leadership team. We remain focused on improving skin health care with every patient we treat.

Focused on patient care

Our adaptable and responsive business model allows our doctors, providers, clinical staff and employees to pursue their career passions while honoring our patient-first purpose. We are accomplished, board-certified and accredited experts who make the latest innovations in skin care accessible, and procedures and outcomes easy to understand.

Joining Pinnacle Dermatology means letting us do the heavy lifting, liberating you of administrative responsibilities unrelated to hands-on patient care. We provide a team-oriented, family-like culture that empowers you to focus on patient care. Teamwork, empathy, and a positive personality are essential traits for us. We have a full support staff that works to make your job easier and keep the focus on your patient's needs. Our team members all work together to ensure the extraordinary care of our patients.

Pinnacle dermatologists benefit from:

- A generous initial guaranteed salary and a lucrative production-based compensation package with obtainable opportunity to far, exceed national salary benchmark levels.
- Flexible schedule of 4 or 5 days per week to enjoy a work-life balance.
- Multi-state expanding practice with the ability to relocate and maintain your level of seniority throughout your career.
- Clinical autonomy to practice per standards of care.
- Strong patient volumes and established referral base that is supported by marketing.
- Supportive leadership team and a centralized call center to help with operations, marketing, HR, IT, billing, compliance, community outreach, insurance contracting, insurance pre-certification, patient appointments, callbacks, and so much more!
- Clinic support staff utilized to scribe for providers and clinic staff levels are proportionate with patient volume.

Affiliated with Rush
